HYVOLUTION PARIS 2025 : An 8th edition that confirms its role as the global leader in hydrogen

15 000 PROFESSIONALS GATHERED OVER 3 DAYS

The 8th edition of Hyvolution Paris, held from January 28 to 30 at Paris Expo Porte de Versailles (Halls 4 & 6), once again demonstrated its pivotal role in the global hydrogen ecosystem.

With 550 exhibitors and brands, over 15,000 professionals from 65 countries, and an exceptional business dynamic, the event stands out as a key catalyst for the development of a competitive and sustainable hydrogen economy.

A DRIVING FORCE FOR THE HYDROGEN INDUSTRY

An event at the heart of the sector's transformations

Hyvolution Paris 2025 provided a unique platform for stakeholders across the entire value chain, from hydrogen producers to industrial players, as well as local authorities and investors, covering key target markets in mobility, energy, and industry. This year, discussions were particularly focused on the challenges of industrialization, financing, and the acceleration of large-scale deployment.

Key figures about this edition:

- ∞ **550 exhibitors and brands** (including 41% new participants and 33% international)
- ∞ **15 000 professionals, a 3% increase compared to 2024, with 1/4 of them being international**
- ∞ 120 workshops and conferences, bringing together over 300 international experts and speakers.
- ∞ The 3rd edition of the **Hyvolution Summit**, gathering political and economic leaders to define the key directions for the sector

Among the highlights, the exclusive unveiling of the 2025 European Hydrogen Index, created in partnership with EY, provided a crucial strategic framework for the development of low-carbon hydrogen in Europe.

A STRONGER INTERNATIONAL OUTLOOK

With a record participation of 12 international pavilions and visits from numerous ambassadors, Hyvolution Paris 2025 also reinforced its international dimension. Hydrogen-leading countries such as Germany, Japan, South Korea, Brazil, and the United Kingdom showcased their technological advancements and shared their vision for the large-scale development of hydrogen.

Moreover, the diversity of international visitors highlighted the growing attractiveness of the event. Delegations from South America, the Middle East, and Asia participated in discussions, fostering new partnerships and strengthening global cooperation on energy and climate issues.

A STRONG IMPULSE FOR REGIONS AND EMPLOYMENT

French regions also played a key role by supporting their local businesses. They were present to highlight their initiatives and contribute to the growth of a well-structured hydrogen sector across the national territory.

Recruitment and employment:

The 2025 edition was marked by a strong recruitment dynamic, with numerous job offers posted and dedicated meetings between companies and skilled talent. The growing demand for expertise in the sector reinforces Hyvolution Paris as a true accelerator for shaping the jobs of tomorrow.

MEDIA COVERAGE WORTHY OF THE EVENT

This edition also received extensive media coverage, confirming the growing interest in the hydrogen sector. **Over 150 accredited journalists** from major French and international media outlets covered the event, reporting on the announcements, innovations, and strategic discussions of the exhibition.

This strong media mobilization demonstrates the growing anticipation within the media ecosystem around hydrogen, a sector undergoing significant transformation that is undoubtedly shaping a promising future.

TOWARDS HYVOLUTION 2026: A RENEWED AMBITION

With a continuously growing dynamic, **Hyvolution is already setting the stage for a new, even more ambitious edition in January 2026**. The event will take a new step by moving to **Pavilion 1 at Paris Expo Porte de Versailles**, a larger space that will accommodate more exhibitors, enhance the visitor experience, and meet the expansion of the market.

The goal? To continue accelerating industrialization and strengthen international cooperation to make hydrogen a key pillar of the global energy transition.

Next appointment: Hyvolution Paris 2026 – Paris Expo Porte de Versailles, Pavilion 1.

Hyvolution also invites you to its international editions:

-  3rd edition of **Hyvolution Chile 2025** – Santiago – September 2, 3, and 4, 2025.
-  1st edition of **Hyvolution Canada 2025** – Trois Rivières – October 1 & 2, 2025

Offer / exhibitors

- ∞ 550 exhibitors and brands, including 41% new participants.
33% of international exhibitors.

TOP 5 of the sectors represented

- ∞ Hydrogen production
- ∞ Storage & Distribution
- ∞ Mobility
- ∞ Industrials applications
- ∞ Services & Engineering

Visitors

- ∞ **15 310 professionals**
- ∞ **24,11%** of international visitors
- ∞ Over **1,500 scheduled meetings** at the event through Hyvolution Hub
- ∞ **28 052** connections, representing a +55.7% increase compared to 24

The international dimension

- 12 PAVILIONS

- | | | |
|-----------|------------|------------------|
| • Germany | • Flanders | • Piedmont |
| • Brazil | • Italy | • United Kingdom |
| • Canada | • Japan | • Taiwan |
| • Chile | • Morocco | • Wallonia |

- 15 ASSOCIATIONS PRESENT

- ∞ Colombia: Hidrogeno Colombia
- ∞ France: France Hydrogène
- ∞ Germany: Hydrogen Center Bavaria (H2.B) et Renewable Energy Hamburg (EEHH)
- ∞ Hungary: Hungarian Hydrogen Technology Association
- ∞ Iceland: Icelandic Association of Hydrogen and Efuel Producers
- ∞ India: GH2 India
- ∞ International Hydrogen Fuel Cell Association (IHFCA)
- ∞ Poland: Hydrogen Poland
- ∞ Portugal: EnergyIN
- ∞ Scotland: Hydrogen Scotland
- ∞ Spain: Spanish Hydrogen Association (AeH2), Aragon Hydrogen Foundation et Castilla y Leon Hydrogen Cluster (H2CYL)
- ∞ Taiwan: Taiwan Hydrogen and Fuel Cell Partnership (THFCP)

- 10 ORGANISED DELEGATIONS

About the organiser

GL events Exhibitions

With 200 events organised worldwide for professionals and the general public, GL events Exhibitions has unequalled expertise in organising exhibitions and trade shows – a business that has to stay abreast of increasingly specialised marketing, communication and organisational techniques while retaining close ties with market players. The Hyvolution Paris exhibition is organized by the GreenTech+ division of GL events, which also manages eight other major gatherings: BePOSITIVE, Expobiogaz, Eurobois, Open Energies, Paysalia, Piscine Global, Rocalia and Terrenra.

GreenTech+ is a division of the GL events group, providing a unique shop window born from the synergies between exhibitions that address common themes relating to eco-innovation and sustainable development.

GL events created GreenTech+ to play a full part in the world's major environmental issues, based on the only format of its kind in the sector, building bridges between the sectors of the future and maximising their visibility.

GreenTech+ is the accelerator via which the GL events group undertakes to support the sector's stakeholders in their development, identify the solutions of tomorrow and instil an ever-greater eco-awareness and responsibility among our citizens.

Organised jointly with France Hydrogène

With more than 450 member companies and institutions, France Hydrogène is the united face of French stakeholders in the hydrogen sector, covering every stage of the value chain: industrial corporations developing large-scale projects, innovative smaller businesses and start-ups supported by laboratories and excellent research centers, trade associations, schools, competitive clusters and local authorities working on the deployment of hydrogen solutions.

As a preferred partner of government bodies, France Hydrogène acts to:

- Represent all hydrogen sector stakeholders
- Raise awareness of the issues and promote the sector's solutions
- Act as the go-to expert
- Roll out hydrogen
- Boost the French hydrogen sector's outreach.

France Hydrogène supports the sector all the way down to local level through its 14 regional delegations. Its overarching goal is to accelerate the development of hydrogen solutions for a successful energy transition, reindustrialise the country and create local value to improve everyone's quality of life.
